## EUROPEAN SYNCHROTRON RADIATION FACILITY

## **STANDARD EXPERIMENT**

## **CONFIDENTIAL REPORT**

Experiment title:	Experiment number:
Quantitative mapping of Ca in human bone mesenchymal stem cells combining X-Ray near field ptychografic nanotomography with X-Ray fluorescence microscopy	LS-2490
Main-Proposer:	
Jeanette anne marie Maier	
Beamline and dates of experiment :  ID16A-NI – from 16 to 19 July 2016 (9 shifts)	

A confidential report was submitted for this experiment; it was sent to the User Office.
